- ✓ Perform UI automation and API testing with Playwright.
- ✓ Use Git, Jenkins, and CI/CD for test automation workflows.
- ✓ Build job-ready skills through our Playwright Automation Testing Course with real-world projects.

Student Success Stories

Whalecourse Technologies made Playwright easy to learn. Hands-on exercises and live projects helped me understand browser automation step by step. The trainer explained every concept clearly, and I now write Playwright scripts with confidence.

Rajesh B
Automation Testing Student

Before joining, I had very little automation testing knowledge. Practical sessions on Playwright, JavaScript, and API testing made learning simple. Step-by-step guidance improved my coding skills and prepared me for real testing projects.

Ramya A
Student

This course gave me practical experience with Playwright and browser automation. Live projects, mock interviews, and interview preparation improved my confidence and helped me feel ready for QA automation interviews and testing roles.

Gautham G
Automation Test Engineer
